25 June 0630

Bay of
Danzig

-

The vessel came from the direction of Helg and headed toward Gdynia. It had a free forward section, a small bridge superstructure and a signal mast abaft. Two machine guns were aft of the bridge and a 20-mm AA gun was on the quarter-deck. A depth charge chute with 6 depth charges was on either side of the stern. The vessel had no stack and was painted gray. White identification number at the bow. Polish war ensign.

Harbor
Basin IX

Destroyer [] had a pendant in the mast. At 0800 on 11 July, approximately 100 sailors in 2 or 3 ranks fell in on deck []. At 0815, they were dismissed and, between 0815 and 0830, received gun drill on the 2 guns aft. From 0755 to 0800 on 12 July, there was another roll-call []. From 0800 to 0815, gun drill on the 2 guns aft. From 0815 to 1200, 2 groups each of 100 sailors were on the landing stage in front [] and appeared to receive instruction. At 0700 on 13 July, [] was no longer seen; it had presumably left harbor.
